

# BIO THERM EXTREME

-30°C, -20°C, +40°C

**SAMPLE  
TRANSPORT  
PACKAGING**

**The BioTherm Extreme product range protects the integrity of critical ambient patient samples when exposed to extreme climates of -30°C, -20°C and +40°C. These systems are qualified for between 4 to 38 hours.**

The BioTherm Extreme is designed to keep a payload from going below 0°C or above 30°C. Ideal for clinical trial samples exposed to extreme conditions during low winter and high summer months.

## THIS PRODUCT CAN BE USED TO

- Deliver a lower cost transportation solution, compared to traditional temperature protection for sub 1 kg to sub 5 kg actual/volumetric weight samples
- Reduce sample attrition eliminating the need for costly re-tests
- Operate with zero conditioning and minimal assembly time, allowing ease of use by clinical trial sites
